

ASD Family Forums

September – October 2012

Disability Support Services (Ministry of Health) and Altogether Autism invites you to ASD Family Forums to update you on:

- ASD specific behaviour support
- “*Growing up with Autism*” a twenty week intervention for parents of adolescents with autism
- A proposal on how the Ministry plans to help full time carers find relief carers

We want to hear what sort of ASD short break (or respite) might best suit your family, school holiday camps, camps for siblings, etc.?

We recognise the important role whānau/families have in supporting a family member with ASD.
