

Join in Junior

This weekly 2 hour programme is aimed at children aged 3 ½ to 6 year olds, and their parents/care givers. It is important for children who want to participate to be able to follow basic instructions and are able to attend the group every week.

Caregivers are encouraged to actively help their child participate in all activities. Aim of the group is for children to get used to following instructions, participate in group activities and to try new things in a safe and encouraging environment. Our goal is that children who participate have confidence and (social) skills to be able make a successful transition to kindergarten and school.
